## Bandai Namco, AirConsole and Volkswagen bring PAC-MAN into the vehicle

- The PAC-MAN Championship Edition<sup>1</sup> can now be experienced exclusively in over 300,000 Volkswagen vehicles in Europe
- Immersive in-car gaming<sup>2</sup>: Volkswagen is the first brand to bring to market dynamic background lighting during the gaming experience
- Classic PAC-MAN elements such as fruits become wheel rims, silhouettes of iconic Volkswagens from the Beetle to the Golf IV R32 and brands such as GTI or R

**Wolfsburg – Volkswagen is expanding its gaming offering in selected models. The PAC-MAN Championship Edition is now available in the optional AirConsole<sup>3</sup> In-Car App for playing on the infotainment display in a parked vehicle. A smartphone serves as the controller. Volkswagen is the first automotive manufacturer to dynamically combine the new game with the vehicle's background lighting and, for compatible ID. models, also with ID. Light as an option. This means that an even more immersive gaming experience is created specifically by the interior lighting responding to the game content and inputs by the players.**

**Immersive gaming experience in over 300,000 Volkswagen vehicles in Europe.**

Volkswagen Beetle, VW Bus and Golf IV R32, brands such as GTI, GTX or R and Volkswagen wheel rims. Anyone who wants to fight the Ghost Gang should look for power pellets in the form of the Volkswagen brand logo.

AirConsole is the world's first gaming platform specifically designed for cars. The in-car app can transform compatible Volkswagen vehicles into a gaming station including the infotainment, sound and background lighting system. The portfolio of games is tailored to casual players of any age. With the implementation of the further gaming offering, Volkswagen is also responding to customer feedback from drivers. With partners N-Dream and Bandai Namco Entertainment Inc., in-car gaming becomes a new social experience, and playing a classic game such as PAC-MAN connects generations. Volkswagen is additionally further enhancing the overall digital experience.

## Media Information

The AirConsole in-car app is available in many European countries in the ID. models ID.7, ID.5, ID.4 and ID.3 (from ID. Software 4.0 in each case) as well as for the Tayron, Tiguan, Passat, Golf Variant and Golf models from model year 2025. Playing while parked requires a Volkswagen ID user account, an active VW Connect Plus contract and an active internet connection on the smartphone. The AirConsole in-car app must be downloaded from the In-Car Shop before it can be used for the first time.

<sup>1)</sup> PAC-MAN™ Championship Edition & ©BANDAI NAMCO Entertainment Inc.

<sup>2)</sup> Option. The immersive gaming experience with dynamic background lighting and ID. Light can be experienced with the PAC-MAN™ Championship Edition in the ID.7, ID.5, ID.4 and ID.3 models with the Wellness In-Car App from ID. Software 5.0 or higher. In the Tiguan and Tayron models, the Life specification package or higher from model year 2025 is required for the immersive game experience with dynamic background lighting with the PAC-MAN™ Championship Edition.

<sup>3)</sup> Volkswagen AG (Volkswagen) provides access to AirConsole with this In-Car App. Volkswagen is not responsible for the provision of the AirConsole content. N-Dream AG provides the games under its own responsibility. The use of AirConsole games is governed by the Terms of Use and the Privacy Policy of N-Dream AG. Information on data processing for the purpose of transferring data to N-Dream AG can be found in the VW Connect Privacy Policy

---

The Volkswagen Passenger Cars brand has a global presence and produces vehicles at 28 locations in 12 countries. In 2024, Volkswagen delivered about 4.8 million cars. These include bestsellers such as the Polo, T-Roc, T-Cross, Golf, Tiguan and Passat as well as the successful all-electric models of the ID. family. About 170,000 people currently work at Volkswagen around the world. With its ACCELERATE strategy, the company is consistently driving forward its development into the most desirable brand for sustainable mobility.
