Sharan – available now with new safety equipment and as new “Black Style” special model

- New safety features as standard for the most popular family van in its segment
- “Black Style” design package – punchy, yet elegant design details make the Sharan a real eye-catcher
- Sharan meets the Euro 6d-TEMP emissions standards with all engines

Wolfsburg (Germany) – The Sharan is back in showrooms now, following a host of technical enhancements. The long-distance van, so popular with families, boasts numerous innovative safety features as standard, making it one of the most advanced vehicles in its segment. For a particularly exclusive look, the Sharan is now also available in the new “Black Style” special model.

The Sharan has a host of new safety features as standard. The “Black Style” special model is pictured here

A real eye-catcher: “Black Style” logo

Driver assistance systems are of crucial importance for a long-distance, family vehicle like the Sharan. As such, all trim levels for the updated Sharan include the “Lane Assist” system as standard, as well as the “Front Assist” area monitoring system, which warns the driver when getting too close to the vehicle in front and applies the brakes within system limits.

To ensure maximum safety throughout this dark and rainy time of year, the Sharan also has an auto-dimming rear-view mirror, daytime running lights and a rain sensor for the windscreen wipers. A multi-functional steering wheel is also available as standard.

Powerful and efficient turbo engines

The highest performance level is the new 130-kW / 177-PS¹, 2.0 TDI four-cylinder diesel engine, closely followed by the 110-kW / 150-PS², 2.0 TDI and the equally powerful 1.4 TSI³ four-cylinder petrol engine. This is now fitted with a gasoline particulate filter (GPF). All the engines meet the latest Euro 6d-TEMP emission standards. The engine's power is applied to the road via a 6-speed manual or 6/7-speed DSG gearbox, depending on the trim level and power unit selected. All TDI engines are also available with 4Motion four-wheel drive as an option.

The new Sharan "Black Style" special model

Exclusive, dynamic and black: the new "Black Style" special model sees Volkswagen enhance the Sharan range. It can now be ordered with the Comfort and Highline trim levels. A new black roof, with black roof rails and the "Black Style" logo, available exclusively with this special model, provide an individual, elegant appearance. The interior is equally impressive: in particular, the comfortable two-tone leather seats in matching Bonanza Titanium Black emphasise the exclusive interior features.

The "Active Lighting System" provides more light in the dark. It consists of "Dynamic Light Assist" and the so-called "dynamic cornering light with predictive controls". If requested, "Dynamic Light Assist" switches to main beam at speeds of more than 60 km/h and main beam then remains active. The LED modules are controlled using a camera in such a way that they provide optimal illumination of the road, without blinding other road users. The "dynamic cornering light with predictive controls" improves illumination of corners.

An overview of other "Black Style" features:

- "Odessa" 17-inch alloy wheels
- Tinted rear side windows and rear windscreen, which absorb up to 65 percent of the light
- Black mirror caps
- Black window trims

The Sharan "Black Style" is available from 42,375 Euro in the Comfortline trim level and is available exclusively in Germany.

¹⁾ Sharan 2.0 TDI (130 kW/177 PS): Fuel consumption in l/100 km 7.8 – 6.5 urban, 5.6 – 4.9 extra-urban, 6.4 – 5.5 combined; CO2 emissions combined g/km: 168 – 144; Efficiency class: B – A

²⁾ Sharan 2.0 TDI (110 kW/150 PS): Fuel consumption in l/100 km 7.5 – 6.1 urban, 5.4 – 4.6 extra-urban, 6.2 – 5.2 combined; CO2 emissions combined g/km: 163 – 135; Efficiency class: B – A

³⁾ *Sharan 1.4 TSI (110 kW/150 PS): Fuel consumption in l/100 km 8.7 – 7.9 urban, 6.3 – 5.6 extra-urban, 6.9 – 6.6 combined; CO2 emissions combined g/km: 157 – 150; Efficiency class: B*

About the Volkswagen brand: “We make the future real”

The Volkswagen Passenger Cars brand is present in more than 150 markets throughout the world and produces vehicles at over 50 locations in 14 countries. In 2017, Volkswagen delivered 6.23 million vehicles, including bestselling models such as the Golf, Tiguan, Jetta or Passat. Currently, 198,000 people work for Volkswagen across the globe. The brand also has over 7,700 dealerships with 74,000 employees. Volkswagen is forging ahead consistently with the further development of automobile production. E-mobility, smart mobility and the digital transformation of the brand are the key strategic topics for the future.
