## Touran for the first time Europe's top selling MPV

- Touran developed in 2016 into No. 1 of all MPV classes
- Handles stop-and-go traffic automatically with new ACC

Wolfsburg – Volkswagen's Touran is for the first time Europe's most successful MPV. As ascertained by renowned market research company IHS Automotive, the Touran asserted itself on the European Continent as the top selling MPV with a total of more than 112,000 new registrations in 2016. The latest generation of the all-rounder with its innovative driver assistance and infotainment systems is sold in over 40 countries worldwide. Thanks to the fold-flat seating (with up to seven seats and 834 litres of boot space) the Touran ranks as one of the most variable multi-purpose vehicles of any class.

Popular European: The Touran in Amsterdam

Volkswagen recently updated one of the Touran's most important driver assistance systems: the ACC (including Front Assist surroundings monitoring and City Emergency Brake function). The adaptive cruise control now covers the speed range from 30 to 210 km/h (previously 30 to 160 km/h). Combined with a dual clutch gearbox (DSG), this spectrum widens from 0 to 210 km/h. With ACC and DSG, the Touran now moves through stop-and-go traffic almost automatically, as – within the system limits – it slows to a stop and pulls away again autonomously. The specialist family vehicle's further highlights include technologies such as the 3-zone-Climatronic system (high air quality thanks to an active biogenic filter) and the Car-Net Cam Connect camera system – where a GoPro® camera removes the need for parents to turn around by showing a picture of any children in the back on the infotainment system's monitor.

### About the Volkswagen brand: "We make the future real"

The Volkswagen Passenger Cars brand is present in more than 150 markets throughout the world and produces vehicles at over 50 locations in 14 countries. In 2016, Volkswagen produced about 5.99 million vehicles including bestselling models such as the Golf, Tiguan, Jetta or Passat. Currently, 218,000 people work for Volkswagen across the globe. The brand also has 7,700 dealerships with 74,000 employees. Volkswagen is forging ahead consistently with the further development of automobile production. E-mobility, Smart mobility and the digital transformation of the brand are the key strategic topics for the future.
